NEED IS**

**&**

**+THIS PROVEN  
BLUEPRINT**

**to make \$\$\$ every week!**

**Hey Friend!**

**It's Ivan here. Thanks for downloading my eBook!**

Congratulations on making your first steps toward your own affiliate marketing business.

Imagine.

You could be having a profitable business in just a few months from now!

How to make it happen?

Well, my friend, follow my lead!

In this handbook, you'll discover a **PROVEN** four-step formula that will get you up and running in a matter of days.

In a few months from now, you could be earning passive online income!

It's not a promise, but it's more than possible.

The formula that I'm about to share in this guide has helped me and thousands of other affiliates to finally start making money online.

The best part is, anyone can do it!

Are you ready?

### **Step 1. Choose Your Niche**

I'll Help You With This One, Don't Worry

### **Step 2. Build a Website**

It's FREE Within this Guide!

### **Step 3. Get Visitors to Your Site**

I'll Show You a Secret Place

### **Step 4. Promote Products & Earn Revenue**

Once You Get the First Three Steps, This Part is Easy

That's it!

A simple four-step formula and someone who can explain the process is all you need to start a successful online business.

Are you excited to get started?

Let's do this!

## **What Is Affiliate Marketing?**

In most simple words, affiliate marketing is business based on revenue sharing.

The main idea is that you promote other people's products through your own marketing efforts in return for the commission.

It's that simple.

Recommend something to someone and earn revenue by doing so!

## **What Do You Need to Get Started?**

Affiliate marketing is a powerful and effective business because it doesn't require a significant investment.

Here's what you need to get started:

- a laptop or PC
- an internet connection
- some kind of interest (I'll explain this soon)
- a FREE website (you'll get one here)
- a strong reason WHY!
- a will to learn a few new skills
- patience and persistence

## **What Can You Expect from Affiliate Marketing?**

- you can fire your boss and quit your job
- you can have more time for people and things you love
- you can create multiple streams of income
- you can do whatever you want with your life
- And the list goes on!

So are you ready to get rolling?

Let's start by choosing your niche market!

## **Step 1.) Choose Your Niche**

A niche market is a subset of the market on which a specific product is focused.

If this definition sounds a little boring, listen to this example so you can have a picture to play with.

Health and fitness is the general market.

Weight-loss supplements are the product that is focused on a specific niche within the market.

Here's another one.

Kitchen appliances are a general market.

Microwave ovens are the product that is focused on a specific niche within the market.

Three is the magic number so let's give one last example.

Basketball is a general market.

Basketball hoops are the product that is focused on a specific niche within the market.

Get it now?

You see, the key to quick success is to narrow your niche so that you can see the results faster!

The narrower your niche is the less competition down the road.

And if there's less competition, you could succeed faster.

## **So how do you choose your Niche Market?**

This part is straightforward and fun.

Imagine something you like to do, something like a hobby.

What is it?

Now understand that it could be your Niche Market.

It's that simple.

If you like hiking, you can share your passion for hiking and make money promoting a product within hiking niche (backpacks, tents, etc.)

If you like reading books, you could share your passion for books with other people and recommend your favorites.

If you are into dancing, I'm sure that you can talk about your hobby and sell some dancing equipment.

My point is, there are billions of niches out there!

All you need to do is pick one carefully and understand the following sentence.

Whatever hobby or passion you may have, it can be turned into an online business if you follow this four step formula.

And don't worry, you don't need to be an expert in your niche, but you can become one pretty fast.

## **Step 2.) Let's Build a Website**

I found this cool platform for starting an online business.

These guys literally share FREE WEBSITES to people!

It's the place where I host all my sites, manage my business, continuously learn about affiliate marketing, hang out with other marketers, and so much more!

The name of the platform is the Wealthy Affiliate.

It's my best recommendation for building a WordPress website and starting an online business.

Here's what you need to do to claim TWO FREE SITES!

All you need to do is [CLICK HERE](#).

Simply open a free Starter account and you'll get two free sites and a 10 free lessons, where Kyle (co-owner of the platform) will teach you all you need to know about building a site from scratch.

And please, don't be intimidated by the term "building a website."

It's a simple process that anyone can master.

Now, once you have decided about your niche and have a site up and running, you need to put some niche-related content up there and attract your first visitors.

## **Step 3.) Get Traffic To Your Site**

As with every other business, online or traditional, no traffic means no business.

But don't worry.

I'll show you my TOP SECRET for getting tons of FREE web traffic from search engines (Google, Bing, Yahoo) flowing directly to your site like clockwork.

There are two ways to do so.

You can combine both ways if you want.

### **1.) Share useful niche-related knowledge in form of blog posts.**

So, for example, if your niche is basketball hoops, you can write content that helps people to improve their basketball skills.

And to make money, you can recommend a hoop of your choice.

### **2.) Write niche product reviews.**

So in the example of basketball hoops, you could share reviews of the same and recommend your top choices.

Simple stuff!

As I said, you can do both if you wish, there are no rules.

The main point is to help people within your niche!

## **The Secret to Tons of Free Traffic!**

Here's the secret for getting TONS OF FREE WEB TRAFFIC from Google and other search engines.

It's straightforward, so pay close attention now!

It's the secret that most people don't know.

Ready?

All you need to do is write 2-3 blog posts (reviews) per week for 6 to 12 months.

That's it!

But why 2-3 post and why 6-12 months?

You see, the best traffic is free organic search engine traffic.

But this traffic takes time and work.

That's why.

Google and other search engines give top positions (1-10) of their search engine results to sites that are serious about business.

In other words, Google and others are using this method to select valuable sites from those who are in it just for the hell of it.

You see, many new sites give up during the first year. Search engines won't take you seriously until you prove that you're serious with your business.

It's that simple!

## **So What Happens When You Get Top Positions in Search Engine Results?**

Exposure and traffic to your site!

People will start seeing your site and pay you a visit.

The best thing about this method is the more you share, the more traffic you get.

And the more traffic you get, the more revenue you could earn down the road.

Just remember, it's not an overnight process!

## **Don't Know How To Write Blog Posts?**

Remember Wealthy Affiliate?

They have this [Online Entrepreneurship Course](#) where Kyle, one of the founders, teaches people how to write blog posts and reviews in WordPress.

The topic is too big to fit in here.

So, my advice is to follow his lead because he is one of the best mentors in the business!

You won't regret becoming his student.

I know I haven't, and never will.

## **Step 4.) Promote Products & Make Money!**

Now, I'm going to show you how to access millions even billions of products all from one place.

This place is not so secret at all.

You've probably been using this platform to shop for gifts, gadgets, books, tools, cosmetics, clothes...

It's also the place where you can find a bunch of niche products that you can promote on your site.

Pretty exciting ha?

So what's the name of this platform?

**Amazon!**

Yes, Amazon is your partner in affiliate marketing.

Amazon is the number one online retailer.

It's been here for years, and it'll stay on top for many years to come.

So how you can use Amazon to make money?

It's simple.

First, you'll have to join the [Amazon Associates Program](#).

It's a simple procedure that takes less than 30 minutes.

Once you are accepted (and you will without any doubt), you can start searching for niche related products.

Amazon will give you the unique affiliate link that you'll use to send your visitors to Amazon.

All you need to do is copy and paste your link anywhere on your website (somewhere in the text is the best place).

You have your own site by now.

And if you apply my secret for traffic, you can get tons of niche-related visitors day in and day out like clockwork.

## **Final Example**

A person searches Google for a basketball hoop review.

You have one published, and he or she lands on your site.

You give him/her an honest review and recommendation, and as a result, they are happy to click on your link to Amazon to buy the hoop.

Amazon will then pay you a commission if a person visits their platform through your affiliate link and makes a purchase.

Now all you need to do is rinse and repeat the process as much as you want.

:D

It's the best thing you'll ever learn!

## Conclusion

And that's it! You've completed all four steps.

How do you feel about being on your way to a passive online income?

The feeling is amazing, right? :)

If you, however, want to learn the process in detail, I invite you to follow the link below.

**Wealthy Affiliate** has helped thousands of regular people like you and me to make money online selling anything you can imagine!

Don't miss your chance to [get the best education on online marketing](#) there is!
